Subject: Media Inquiry WT - Quayside RFP

Gentlemen -

Waterfront Toronto has been contacted by a reporter from Bloomberg USA (business/technology) seeking confirmation about specific bidders responding to the RFP for Waterfront Toronto's Quayside project.

We are currently in a blackout period of the RFP, and are very restricted in terms of what can be communicated. Waterfront Toronto offered the reporter some general comments on the goals and aspirations for Quayside, but did not confirm or speak to any potential bidders or the RFP process. The reporter was referred to the RFP document – which is public – for detail on the process and timeline.

It is possible that Toronto media may pick up this story. Should you get any media inquiries, please refer them to [REDACTED] Waterfront Toronto [REDACTED]

Any further comment from Waterfront Toronto will be along the lines of what is described above; bidders to the Quayside RFP have been instructed to make no comment.

Please forward to staff, as appropriate, in your office.
